

CV and Resume Writing

CV stands for "Curriculum Vitae" (Latin for course of life). It provides a comprehensive overview of an individual's academic and professional history.

A CV/Resume is used for job applications, while applying for research grants/scholarships, professional networking- LinkedIn etc.

Difference between a CV and a Resume

CV	Resume
Typically- 2+ pages, can be longer.	Usually 1 page, can be 2 for experienced professionals.
Covers entire career including research, publications, conferences and academic achievements etc.	Focuses on relevant skills, experiences and accomplishments for specific jobs.
Used for academic, research and teaching positions.	Used for jobs in industry, internships and professional roles.
Usually static, updated when needed.	Highly customized for different job applications.

LinkedIn:

A popular professional networking platform where individuals can connect with colleagues, industry professionals, recruiters, potential employees.

For Students:

Students can build a professional profile on LinkedIn showcasing- education, skills, projects, internships, volunteer work, and any relevant coursework.

They can network with peers and alumni- they can find out different industries, career paths, and potential job or internship opportunities.

Students can connect with companies for sponsorships, look for and apply for internships, networking, research.

LinkedIn is widely used for job searches and recruitments. A well-structured LinkedIn profile increases visibility and increases your chances of recruitment.

Also, engage with content.

Why put your Resume on LinkedIn?

It increases your online presence. You can show your professional background, experience and achievement.

This creates credibility.

It helps demonstrate your expertise to your potential employers.

LinkedIn is more than just your CV. LinkedIn profiles generally have a more **narrative format**, allowing individuals to provide additional context and tell their professional story beyond what a traditional CV may include.

Sample LinkedIn profiles:

<https://www.linkedin.com/in/saumyasingh203/>

<https://www.linkedin.com/in/jiteshsingla/>

<https://www.linkedin.com/in/pakhi-bansal/>

<https://www.linkedin.com/in/harshit-walia/>

Q. What information should be there in a Resume?

- Education
- Work Experience
- Awards/Certificates
- Skills
- Research Projects

Education should be in a reverse chronological order listing the most recent achievement first.

Coding profiles: (can include this in your skills).

GitHub (GitHub is a web-based platform that provides version control and collaboration tools for software development projects. It serves as a repository for code and other project files, allowing developers to collaborate, track changes, and manage software development workflows.)

CodeChef (An online educational platform and competitive programming community of global programmers.)

Smith Geller
Technical Hiring Manager
Tech Mahindra
New Delhi, 110001

Subject: Job application for Software Developer Position

Sir/Madam,

I am writing to express my interest in the software position which was advertised on your company website. I believe I meet all the requirements to excel in this role. With a Bachelor's degree and hands-on experience using .Net languages to create and implement software applications, I am confident I will be an asset to your organization.

Throughout my academic and professional career, I have demonstrated strong problem-solving skills, a passion for learning new technologies and ability to work effectively both independently and as a team. I thrive in dynamic and fast-paced environment.

I am eager to contribute my technical skills and be a part of Tech Mahindra that embraces creativity and delivers cutting edge solutions.

Thankyou for considering my application. I've attached my curriculum vitae (cv) outlining my educational background, work experience and technical skills. Please feel free to contact me via email at

Sincerely,
Anshika Sharma.
